## NAME & BTC NETWORK CHANGE FORM

To have your name changed and your network login username (which includes BTC student email accounts) changed, please fill in the **Student Information and Authorization** portion below. At the time that this request is made you must present one form of official identification (driver's license, state ID, marriage certificate or divorce decree) showing the name that you are requesting your records be changed to.

All of the existing data on your home directory (H: drive) on the BTC Network will be moved to the new home directory using your new login name. Once the username change is complete, your initial password will be your 9-digit student ID. You will be prompted to change your password the first time you log on. You will be contacted by the IT-Helpdesk within 72 hours of completion of your update.

If you have a current BTC e-mail account, all of your e-mail will be transferred to your new e-mail account. It is your responsibility to inform your instructors of your new e-mail address so that they can update your information.
